VISION 2020

To register email pssacongress2020@gmail.com
and note names of all attending if registering for more than one

NEEM ASSEBLIEF DEEL AAN DIE SALONNE!!!

Brandpuntfotoklub is derde op die punteleer vir salonne in ons streek vir Suid Gauteng Klubs.

SHADOW PHOTOGRAPHY

A shadow is the absence of light, a reflection is just that, the reflection of light. So a shadow comes from blocking a light source, a reflection comes from the bouncing of light of one source and on to another

KURWES EN PATRONE

Kurwes en patrone - TIPS

A **pattern** is a regularity in the world, in human-made design, or in abstract ideas. As such, the elements of a pattern repeat in a predictable manner. A **geometric pattern** is a kind of pattern formed of [geometric shapes](#) and typically repeated like a [wallpaper](#) design.

Any of the [senses](#) may directly observe patterns. Conversely, abstract patterns in [science](#), [mathematics](#), or [language](#) may be observable only by analysis. Direct observation in practice means seeing visual patterns, which are widespread in nature and in art. Visual [patterns in nature](#) are often [chaotic](#), never exactly repeating, and often involve [fractals](#). Natural patterns include [spirals](#), [meanders](#), [waves](#), [foams](#), [tilings](#), [cracks](#), and those created by [symmetries](#) of [rotation](#) and [reflection](#). Patterns have an underlying [mathematical](#) structure;^[1] indeed, mathematics can be seen as the search for regularities, and the output of any function is a mathematical pattern. Similarly in the sciences, theories explain and predict regularities in the world.

In art and architecture, decorations or [visual motifs](#) may be combined and repeated to form patterns designed to have a chosen effect on the viewer. In computer science, a [software design pattern](#) is a known solution to a class of problems in programming.

Dit kom baie voor in die natuur. Kom ons kyk of lees julle die nuusbrief. Whatsapp my met die vier kurwes en patrone van die fotos van (?) wat julle sien.
